F560 Fleet History Report

Quick Reference Articles

10: F560 Fleet History Report

This report gives a workorder history for a selected unit between a specified date range.

Run this report for 90 days to do the following:

- Look for repeat repairs and investigate the root cause of the repeats
- Resort in Excel by description and look at the highest common number of repairs are being made. Devise ways to reduce these repairs which will reduce the number of times a bus comes in the shop.

The following prompts are available for the report:

- **Subtitle:** Enter a short description that will appear as a Sub Title in the report header. Can be left blank.
- **WO Department:** Enter the department where work is completed. Use % as a wildcard for all departments.
- **Equipment:** Enter bus number. Use % as a wildcard for all equipment.
- **Equipment Org.:** Enter organization of bus. Use % as a wild card for all equipment.
- **Reporting Group:** Enter the Business group number. This is usually the 5 digit JD Edwards business unit. Use % as a wild card for all equipment.
- **Starting Date:** Enter starting date for work order selection. Note, this will be used as the entered date at 12:01 am.
- **Ending Date:** Enter ending date for work order selection. Note, this will be used as the entered date at 12:01 am which means that if work orders completed for the ending date are desired enter an ending date of tomorrow.
- **Print Quick Reference Page:** Check this option to print out the Quick Reference page of Knowledge Base Articles supporting this report.
- **Print Colophon:** Check this option to print out report technical information including run time parameters. Use this option especially when seeking assistance to understand the report output.

N.B., this report is limited to work orders in Review and Closed status. Also, report obeys organization, department, and job type security.
