[About the Atlanta-Region Transit Link Authority](#)

The ATL was created by the Georgia General Assembly during the 2018 legislative session to provide coordinated transit planning and funding for the metro Atlanta region. The ATL is responsible for developing the ATL Regional Transit Plan, as well as identifying and prioritizing the projects and initiatives required to develop region-wide transit. The ATL is also charged with creating a unified regional transit system brand. Effective July 1, 2020, the ATL was legislatively authorized to oversee the state's Xpress regional commuter transit system and the Atlanta region's vanpool system. The population of metro Atlanta is growing rapidly and projected to add an additional 2.5 million residents by 2040. The ATL is a critical step towards more efficient and effective transit and mobility in the region.
